Plant-Based Kojic Acid Serum – Naturally Brighten, Lighten, and Even Out Your Skin **Tone**

Discover the secret to a more radiant, even complexion with our Kojic Acid Serum. Specially formulated to target hyperpigmentation, dark spots, and discoloration, this serum harnesses the power of kojic acid to help lighten skin and promote a luminous glow. Perfect for those struggling with uneven skin tone caused by sun damage, acne scars, or aging, our serum delivers noticeable results with consistent use.

Key Benefits:

- Brightens & Evens Skin Tone: Kojic acid works by inhibiting melanin production, helping to fade dark spots, age spots, and sun spots for a more even and radiant complexion.
- Fights Hyperpigmentation: Whether it's post-acne scars, sun damage, or melasma, this serum helps target stubborn pigmentation, revealing clearer, smoother skin over time.
- Antioxidant Protection: With additional skin-loving ingredients, this serum protects against environmental stressors and free radicals that can contribute to skin aging and discoloration.

How to Use:

After cleansing and toning, apply a few drops of the serum to your face, focusing on areas with discoloration or uneven tone. Gently massage into skin and allow it to absorb fully. Follow up with a moisturizer, and always use SPF during the day to protect your skin from further pigmentation. Ingredients: Kojic Acid, Vitamin C, Hyaluronic Acid, Glycerin, Aloe Vera Extract, and more.

Ayurvedic theory

Our Kojic Acid Face Serum is a 100% plant-based formula designed to brighten your complexion and reduce dark spots. Sourced from the natural fermentation of rice and other plant ingredients, this serum uses plant-derived kojic acid to gently lighten skin and even out pigmentation without harsh chemicals.

Key Benefits:

- Plant-Derived Kojic Acid: We use natural, plant-based sources of kojic acid to target dark spots, age spots, and uneven skin tone. • Gentle & Natural: This serum is free from synthetic chemicals, making it ideal for those seeking a more eco-friendly, cruelty-free skincare option.
- Brightens & Evens Skin Tone: With regular use, it helps reduce hyperpigmentation and reveals a glowing, even complexion. • Hydrates & Nourishes: Infused with plant-based botanicals to hydrate and nourish the skin while brightening.

Why Choose Our Plant-Based Kojic Acid Serum?

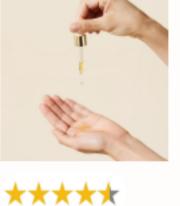

- Eco-Friendly & Cruelty-Free: Formulated with plant-powered ingredients that are kind to your skin and the planet.
- Sustainable Skincare: The kojic acid is derived through plant fermentation, offering an effective yet gentle solution for even skin tone.

Reviews

"Brightened My Skin, Naturally!"

"I've been using the Kojic Acid Face Serum for a month now, and I can already see a noticeable difference in my skin! My dark spots and acne scars have lightened significantly, and my skin feels softer and more radiant. I love that it's plant-based, so I feel good about what I'm putting on my skin. Definitely a must-try!" Priya S., Delhi See the difference in the before and after photos below!

"Love the Natural Ingredients!"

"I've been trying to switch to more natural skincare, and this serum is exactly what I was looking for. It's plant-based and works wonders on my dark spots. My skin feels hydrated, and the glow is real! I highly recommend this to anyone looking for a natural, effective solution for uneven skin tone."

- Rani Mehta, Bangalore

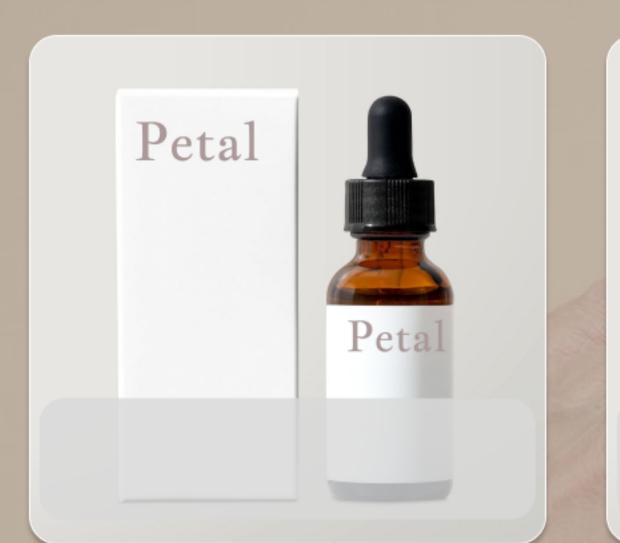

"I've incorporated this serum into my daily routine, and I'm already seeing a difference in my skin tone. It's lightweight, absorbs quickly, and doesn't leave my skin

feeling greasy. I love how gentle and natural the ingredients are—perfect for my sensitive skin!" Meera Desai, Hyderabad

"Great for Everyday Use!"

Face Scanner Report:

Skin Type: Combination

- · T-zone (forehead, nose, chin): Oily
- · Cheeks and jawline: Normal to slightly dry

Wrinkles & Fine Lines:

- Mild fine lines around the eyes and forehead
- Minimal deep wrinkles but some expression lines visible

Hyperpigmentation & Dark Spots:

- Mild hyperpigmentation on the cheeks (slightly darker spots, likely from past acne or sun exposure)
- No significant dark circles under the eyes

Pores & Texture:

- Enlarged pores on the nose and around the chin area (likely from excess oil production)
- Smooth texture on the cheeks with no visible rough patches

Redness/Sensitivity:

• Mild redness around the nose, possibly from slight irritation or sensitivity to certain products

Why Petal? Doctor's say FAQ

See what doctor has to say about your condition

Meet Dr. Aryan Sharma – Dermatologist & Ayurvedic Skin Care Specialist

Hello! I'm Dr. Aryan Sharma, a dermatologist with a deep understanding of Ayurvedic principles. With over 12 years of experience, I combine advanced dermatological treatments with natural Ayurvedic remedies to offer a holistic approach to skin care.

After completing my MBBS and specializing in Dermatology, I further explored Ayurvedic medicine to gain a deeper insight into how internal health influences skin.

I believe in treating the root causes of skin issues using a blend of modern science and time-tested Ayurvedic practices—whether it's acne, aging, pigmentation, or overall skin health.

I'm here to help you achieve healthy, glowing skin with a personalized plan that nurtures both your skin and your well-being. Let's work together to bring out the best in your skin-naturally and effectively.

1. Understanding your skin type is essential when selecting the right skincare products.

- Oily skin tends to have excess sebum production, which can result in a shiny appearance and frequent breakouts. It's important to use oil-free, non-comedogenic products to avoid clogged pores.
- Dry skin may feel tight, rough, or flaky and could benefit from richer, hydrating products. Look for moisturizers that contain ingredients like hyaluronic acid, ceramides, and fatty acids.
- Combination skin typically has oily areas (like the T-zone) and dry areas (cheeks, around the eyes). It's best to use a gentle cleanser and balance the skincare routine with products that target both concerns.

2. Sensitivity to Skincare Products

If your skin is sensitive to new products, it's crucial to introduce them slowly. Look for products labeled "hypoallergenic" or "for sensitive skin." Always patch test a small amount of product before using it fully.

Be mindful of common irritating ingredients such as alcohol, fragrances, and synthetic dyes, especially if you experience redness or a stinging sensation.

3. Wrinkles & Fine Lines

• Fine lines often appear around the eyes, mouth, and forehead. They're a normal part of aging, but can be minimized with moisturizers that support hydration and products with anti-aging ingredients like retinol, peptides, and antioxidants.

Quiz Report

This week we will focus on the following:

Week 1

Get Started with Your Customized Serum

- · Apply Your Serum: Use your personalized serum daily, massaging it into your scalp for 2-3 minutes.
- Scalp Care: Gently exfoliate your scalp to remove buildup and improve serum absorption.
- Shampoo Routine: Use a sulfate-free shampoo to protect your serum's effectiveness.
